Chaz Chavez. has over 20 years of DJ experience, Chaz is, also a Sound Scientist, who blends a unique mix of Bass Music, Ecstatic Dance & Sound Healing with instruments from all over the world.

Lionhearted Poet, visionary MC, and award-winning filmmaker Chad “Diamond: Dann uses the power of his voice and camera to capture and express the essence of who **Vibrational Souls** are, bringing a unique flavor to the group. Chad’s multi-talented raw style and cinematic nature are a one-of-a-kind experience. Something which all souls on this planet should witness.

In 2010 Chaz felt a calling to step outside the typical music gigs that led him on a soul quest through Mexico and Guatemala. Visiting the temple pyramids at Palenque, Tulum, and other sacred sites, he was introduced once again to the sacred sciences of sound, vibrational transformation, and music through multiple forms of indigenous ceremonies. He then began immersing himself in studying the ancient sacred knowledge of architecture, music therapy, vibration, sacred geometry, sound healing, and indigenous theories.

Currently, he works at Northwest Sound Healing & Musical Instruments, sharing the world and history of musical instruments. Managing the Purple Lotus Recording Studio within, he works with different types of medicine music, sound healing artists, spiritual pop, electronic music, ecstatic dance, and bio-healing frequency music. With this immersion in musical instruments and vibrational sound healing, he brings about a whole-hearted beautiful resonance that is felt not only thru the ears but also thru the heart, mind, and soul, unlike no other.

Look out for **Vibrational Souls & Soul Family** coming to a city near you.
